### **DETAILED ACTION**

This is an Allowance for application no. 09/874676 in response to the After Final Amendment filed on April 13, 2006.

#### ***Allowable Subject Matter***

Claims 6, 7, 10-12, and 15-18 are allowed.

The following is an examiner's statement of reasons for allowance: As stated in the First Office Action, dated 9 September 2004, independent claims 6 and 11 contain the novel feature "means for turning said web camera off when said vehicle is within a predetermined distance of a location designated by the vehicle's owner."

The closest prior art (Passman et al. US Patent no. 6,636,256), as shown in Figure 1, teaches a communications system comprising a plurality of vehicles; a plurality of web cameras, each of said cameras being disposed in one of said vehicles and being active when the vehicle is running (note: each vehicle(102) contains a camera (101)). Passman further teaches the means for transmitting information from said vehicles via a wireless network, said transmitted information including video information from said web cameras. Passman further teaches a server (108, Fig. 1) for receiving the video information and providing a plurality of images for viewing by a plurality of communication system users (122) (Col 3 Lines 9-25 and Col 4 Lines 30-35). However, Passman fails to particularly teach or suggest "means for turning said web camera off when said vehicle is within a predetermined distance of a location designated by the vehicle's owner" as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erick Rekstad whose telephone number is 571-272-7338. The examiner can normally be reached on 8-5.
